

## **RESOLUTION 2024-09-02**

### **AUTHORIZING THE PURCHASE AND INSTALLATION OF A NEW PUMP AT THE LEWIS STREET AND INDUSTRIAL WAY PUMP STATIONS**

**WHEREAS**, the #2 pump at the Lewis Street Pump Station was evaluated by Chris Muccie, Superintendent/Safety Coordinator for the Eatontown Sewerage Authority, who found that the wear plate, impeller, seal hold plate, lower mating ring, mechanical seal and ball bearings are all in bad condition, as well as a short in the terminal block; and

**WHEREAS**, the cost for a new pump from Municipal Maintenance for the Lewis Street Pump Station is \$15,000.00, which is about what it would cost to rebuild the existing pump; and

**WHEREAS**, the #2 pump at the Industrial Way Pump Station was also evaluated by Chris Muccie, who recommended that a new pump be installed as the current pump is 13 years old, and the average lifespan of the pumps is 10-15 years; and

**WHEREAS**, the cost for a new pump from Municipal Maintenance for the Industrial Way Pump Station is \$18,000.00; and

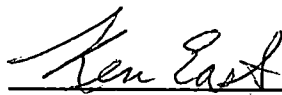

**WHEREAS**, the Board has discussed this issue and determined it to be in the best interests of the Authority to purchase a new pump.

**NOW, THEREFORE, BE IT RESOLVED**, by the Eatontown Sewerage Authority, as follows:

1. That the Authority shall purchase a new pump to replace the damaged pump at the Lewis Street Pump Station in an amount not to exceed \$15,000.00.
2. That the Authority shall purchase a new pump to replace the old pump at the Industrial Way Pump Station in an amount not to exceed \$18,000.00.

**BE IT FURTHER RESOLVED** that the Executive Director is authorized to execute any and all documents necessary to effectuate this resolution.
